

# SUMMER WORKSHOP ON ENERGY EDUCATION FOR TEACHERS (SWEET)

SAVE THE DATE: JUNE 15-16, 2021

---

Do you teach High School Science and/or STEM?  
Are you looking for a SWEET professional development opportunity?

Join scientists from the Colorado School of Mines & the National Renewable Energy Lab with other STEM high school educators for the **Summer Workshop on Energy Education for Teachers (SWEET)**, brought to you by Nexus.

Experience the latest technology, collaborative activities and customized instruction to bring knowledge and tools to your students, while earning continuing education credits from the Colorado School of Mines. Gain skills to help educate the next generation, who will work on the world's most pressing energy & materials science challenges. This is a free online workshop, supplies and a stipend will be provided to participants.

Pre-register with Kelly Hummel at [nexus@mines.edu](mailto:nexus@mines.edu).
