

# SUMMER WORKSHOP ON ENERGY EDUCATION FOR TEACHERS (SWEET)

SAVE THE DATE: JUNE 17-18, 2024

---

**Do you teach High School Science and/or STEM?**

**Are you looking for a SWEET professional development opportunity?**

Join us as scientists from Colorado School of Mines (Mines) and the National Renewable Energy Lab (NREL), alongside Colorado STEM educators, come together for two full days at the next **Summer Workshop on Energy Education for Teachers (SWEET)**, brought to you by Mines/NREL Nexus.

Experience the latest technology, collaborative activities and customized instruction, and bring knowledge and tools to your students, while earning continuing education credits through the Colorado School of Mines Teacher Enhancement Program. Gain skills to help educate the next generation, who will work on the world's most pressing energy & materials science challenges. SWEET is a free, in-person workshop held on the campus of Colorado School of Mines. Space is limited! Register via an email request to [nexus@mines.edu](mailto:nexus@mines.edu).
